

SMARTLINE® SL4800CHARGE

SmartLine®
The Smart Irrigation Controller

SmartLine® SL4800CHARGE is the industry's first battery-powered, cloud-based smart irrigation controller. SL4800CHARGE has the same rich, user-friendly features as the market leading SmartLine® controller, but when power is lost the SL4800CHARGE continues to work. It seamlessly switches between AC power mode and Battery power mode. SL4800CHARGE can take advantage of electricity when available through battery storage and automatically switch to battery backup when power is lost. This solution saves thousands of dollars otherwise required to run dedicated power for irrigation by taking advantage of the existing power supply on timers for lights and other temporarily powered devices, without sacrificing the intelligence of weather based scheduling and cloud connectivity.

- ✓ SmartLink® Aircard compatible
- ✓ On-site ET wireless weather station
- ✓ Solves temporary power supply issues in median applications for HOAs and cities, school districts and DOT irrigation systems
- ✓ Cloud based operation
- ✓ 7 days of reserve power for service or anytime watering requirements
- ✓ Email alerts for system issues: no power, shorted wires and programming issues
- ✓ On-site diagnostics on power system
- ✓ Automatic Daylight Savings Time
- ✓ 10-year battery life
- ✓ 10-year calendar for compliance
- ✓ Omit times, days, and dates for water restrictions
- ✓ Non-volatile memory
- ✓ No controller panel battery required for program memory
- ✓ 2-year warranty including lighting coverage

SMARTLINE SL4800CHARGE SPECIFICATIONS

MODEL	DESCRIPTION
SL4800CHARGE	Battery Powered 48 Zone Controller with Built-In Charge System

Save Water. Give Life.
1,000 gallons
given per controller
