

# CONTROLLERS BATTERY OPERATED CONTROLLER

## 8014ESR-SOLORAIN

1-Zone Battery Operated Controller

For managing irrigation zones independent of traditional wired controllers.

### ✓ A User-Friendly Design

An easy-to-read display and two dials which direct you to intuitive manual and automatic programming.

### ✓ Robust, Weatherproof Quality

The flow-through does not penetrate the internal workings of the solenoid making this one-piece design extremely durable.

### ✓ Enhanced Max Life Lithium Battery

A longer-lasting lithium battery with a sleep mode, and it's in an IPX-65 waterproof container which prevents moisture penetration.

### ✓ Truly Universal Valve Adapter

We have metal adapters compatible with all major manufacturers that provide superior quality to avoid cracking.

## FEATURES

- Valve adapter versions available for all major manufacturers
- Long life factory installed 3.6V lithium battery\*.
- LCD displays clock and programming
- Timed manual ON and OFF
- Length of watering time: 1 minute to 12 hours
- Six watering programs available per day
- Mist Cycle available on all 6 programs
- Days of the week, Odd/Even, and Interval scheduling
- Rain Delay is programmable from 1 to 99 days
- Leap year compatible-automatically includes Feb. 29th every four years
- Waterproof design tested to IP68, 6 ft (1.8m)
- No adapter required for previously installed Signature valves.
